QUALITY ASSURANCE

At International Name Plate Supplies Ltd., we are dedicated to providing defect-free world-class products and services at competitive prices. We accomplish this through personal contributions, teamwork, and continuous improvement.

In order to meet our objectives, a management system that satisfies the requirements of ISO 9001:2015 is maintained. We have appointed a management representative with the authority and responsibility to ensure continued compliance. Regular audits by internal, independent personnel and our customers' satisfaction are used as confirmation.

INPS has the responsibility to produce quality products and services, which meet or exceed our customer's requirements.

INPS understands that all documents and products are sensitive in nature and we place a high regard on our confidentiality agreement with our clients.

OUTSTANDING GRAPHICS, INSTALLATION & WARRANTIES

Design: INPS' graphic team works from supplied digital files, samples or drawings, to rapidly produce new artwork or modify existing files to create fleet or vehicle concept.

Engineering: INPS' engineering department ensures the best material and process support to provide the best solution for our customer's needs.

Production: Using only inks that meet the exacting standards of 3M's MCS warranty program, we will provide proofs that are durable for field testing.

Installation: Your graphics will be installed by a 3M Preferred Installer with the highest level of attention and expertise.

Once installed to our exacting standards, your new graphics are covered by the most comprehensive warranty in the business – 3M™ Matched Component System (MCS™) Warranty.

3M™ MSC™ Warranty

The most comprehensive finished graphics warranty in the industry.

This one wins best in show. When you use finished graphics made with all 3M Graphics products and components, you're protected for virtually any application.

- Non-prorated warranty coverage
- Dedicated complaint resolution team
- Easy access to warranty period matrices
- Weathering tests that set the standard for evaluating the performance and life of a finished graphic

Unlike anything
else in the industry

NEW VEHICLE DECAL PROGRAM

Whatever quantity or model of your new vehicle purchase, rest assure INPS has you covered. Whether INPS supplies the decals to your installation crew or your decal Procurement includes installation you can rely on INPS for quality and on-time delivery.

We design and produce
your work in-house

MAINTENANCE VEHICLE DECAL PROGRAM

Vehicle crashes are unpredictable in when they occur but what is predictable is that INPS has set up and worked with your agency to best support your maintenance facility with spare parts.

- **Customer service**
- **Quality**
- **On-time delivery**
- **Work with your team for planning**

Be Seen. Be Safe. 3M materials keep vehicles visible on the darkest roads.

3M REFLECTIVE MATERIAL

Make sure that your police force is visible and recognizable at all times. Create awareness and a strong visual identity with custom-designed police vehicle graphics and decals that exceed NFPA 1901 standards.

3M™ Scotchlite™ Reflective Graphic Film Series 680:

- Available in numerous colors, for unmarked traffic control units including;
 - black on black
 - white on white
 - green on green
 - blue on blue
- Excellent angularity and pressure-activated adhesive for easy sliding and tacking
- For vertical, flat, curved or corrugated surfaces, with or without rivets
- Permanent, Up to 9 year durability

3M™ 680CR

3M™ Scotchlite™ Removable Reflective Graphic Film with Comply™ Adhesive Series 680CR, IJ680CR

- Available in numerous colors, including black (which reflects white)
- Excellent angularity
- Pressure-activated adhesive for easy sliding and tacking
- Removable with heat
- For vertical, flat, curved or corrugated surfaces, with or without rivets
- Air release channels for fast and easy, bubble-free graphic installation

This 7-mil, enclosed lens, retroreflective, engineer grade film offers flexibility and versatility. It has a similar daytime and nighttime appearance that retains most of its reflectivity when wet.

3M™ 780mC-10R

3M™ Scotchlite™ Print Wrap Film 780mC-10R

- Wrappable reflective film with slideability, non-visible air release and removability for efficient installation and easier removal.
- Engineered with wider retro-reflective viewing angles, conformability, and heat-recovery properties.
- Removable adhesive.
- Up to 9 years expected performance life

A highly conformable, repositionable retroreflective film with micro Comply™ Adhesive and wider angularity. This white print film is engineered to handle the rigorous vehicle wrapping process with little to no bruising and provides a typical coefficient of retroreflection of 100.

WRAP FILM SERIES 1080

Stand out in the crowd. Anything but ordinary, 3M™ Wrap Film Series 1080 is available in more than 100 colours, to create a distinctive look for your vehicle. Whether you want to wrap the entire vehicle or add accents, this personalization film comes out of the box ready to install.

Wrap film for doors and hoods –
save money on paint work

8519 OVERLAMINATE

3M™ Scotchcal™ Luster Overlaminate 8519

Overlaminate 8519 is 3M's workhorse cast vinyl overlaminate.

It is an extremely versatile overlaminate and is an excellent choice for almost all graphic applications.

It offers optimum performance in fleet applications where conformability over rivets, corrugation, and complex curves is critical and where glare can be a concern.

Graphics made with all 3M components, including overlaminate 8519, have full coverage and warranted durability up to 5 years under the 3M™ MCS™ Warranty.

INPS offers a variety of overlaminates which add increased UV protection. We also offer an ultra matte anti-graffiti laminate option.

8519 vs clear coating
for added durability

UPFITTERS & OUTFITTERS

At INPS Graphics, we are involved with almost every step of the production processes. We create the initial concept, we design it, produce it, print it, warehouse it, build it, install it and guarantee it. Our highly skilled, experienced team, provide our customers with custom out of the box solutions.

As an industry recognized 3M preferred installer we can ensure successful graphic applications. INPS is an onsite ambassador in client relations with top quality craftsmanship and detailed communication.

We manufacture full fleet graphics kits for emergency services vehicles, trucks and cars. To ensure the installation of your fleet graphics is as peerless as our product, we provide on-site, 3M-preferred graphics installation service and training.

**EMERGENCY
CELL * 55**

UPFITTERS & OUTFITTERS

INPS has printing capabilities: UV Digital Printing, Latex Digital Printing, Screen Printing up to 5' x 12' and up to 6 colours. INPS offers kits and sub kits with just in time delivery.

Your fleet graphics will be backed by the 5-7 year 3M™ MCS™ Warranty, which is the most comprehensive warranty in the industry.

Our comprehensive Fleet Graphics program includes:

- Design
- Color Selection
- Specification
- Production
- Installation
- Program follow up

SPECIALTY VEHICLES

Permanent, moderate or easily removable films are available for each unique situation. Regardless of your branding or campaign goals, starting with a good film foundation is critical.

When it comes time to remove or change the film, high-quality films come off easily and make removal pain-free after the installation.

In addition to the installation benefits of premium graphic films, branding opportunities for your fleet are virtually limitless.

Partial or full vehicle wraps available. Consider your vehicle a moving billboard.

One off specialty vehicles...
from artwork to install.

SPECIALTY VEHICLES

Graphic films offer maximum versatility covering the gamut of vehicles from:

- Vans
- Semi-trailers
- Utility vehicles
- Passenger vehicle
- Watercrafts
- Motorcycles
- Paddy Wagons
- Armoured Vehicles
- Prison Transport Vehicles
- Special Service Vehicles

INPS works with all types of emergency vehicles.

INSTALL TRAINING

Do you have an existing install crew?

Are you looking for install training for your team to apply graphics on your fleets? Let INPS install one or two vehicles and then we can train your staff to apply the rest.

Education includes:

1. Material education specific for 3M™ Scotchlite™ Reflective Graphic Film Series 680
2. Installation Tools
3. Preparing the Surface – soap and water / alcohol
4. Installing
 - Large, Pre-spaced Graphics
 - Striping
 - Shields
 - Reflective Tape

Save hundreds of dollars per car – available free to INPS customer

INSTALL TRAINING

Installation tools:

- Scotch™ Masking Tape, 1 inch (25.4 mm) or wider
- Tape Measure
- 3M™ Plastic Applicator PA-1 (Blue or Gold*)
- 3M™ Low Friction Sleeve SA-1*
- Single Pin
- Silicone
- Cutting tools, such as a razor blade with a safety holder
- Industrial heat gun; must be capable of attaining 500 to 750F (260 to 399C), or equivalent
- 1/4 inch (0.6 mm) paint brush for applying edge sealer
